

# Cranial-Cervical Muscles and Attachments

Coded identification worksheet

---

- 1** On the first line, write the complete name of the indicated muscle or related soft-tissue structure for each M identifier.
- 2** On the second line, briefly state the main bony attachment or surface relationship shown. A muscle crossing over a suture is not automatically attached to that suture.
- 3** Save the completed file as CranialMuscleAttachments\_Completed.pdf and reopen it to confirm that your answers were saved.

**The modality upload page records your email automatically; no name field is required in this PDF.**

# Cranial-Cervical Muscles and Attachments

Anterior face - upper facial muscles

## NAME + ATTACHMENT / RELATION

**M01** \_\_\_\_\_

ATTACHMENT / SURFACE RELATION

**M02** \_\_\_\_\_

ATTACHMENT / SURFACE RELATION

**M03** \_\_\_\_\_

ATTACHMENT / SURFACE RELATION
