

Cranial-Cervical Bones and Landmarks

Coded identification worksheet

- 1 Open the PDF in your phone's markup application and write the full anatomical name on the blank line matching each B identifier.
- 2 Use the marker position on the drawing to identify the indicated bone, opening, process, or bony landmark. Zoom in before answering.
- 3 Do not draw over the anatomy. Save the completed file as YourName_CranialBones.pdf and reopen it to confirm that your answers were saved.
